Profile

Software engineer, several years of hands-on experience creating and implementing software applications, and the ability to troubleshoot and solve problems in a timely and accurate manner. Involved in numerous large scale software releases and understand the importance of time management and open communication. While balancing athletics and a full academic course load, Through these professional work experiences. I've gained proficiency in programming and several IT technologies. I am also confident in my capabilities to solve bugs and troubleshoot software due to my great math and reasoning aptitude.
